Public Schools — Principals and Districts

The Open Source Student — Florida Educator's Edition · Florida Pilot Kit v1.0

Who this folder is for

Public-school principals, district curriculum leaders, CTE/technology coordinators, and instructional materials reviewers.

Read these first

- Administrator Decision Packet
- Standards, Pacing, and Course Fit
- Implementation Readiness Packet
- Institutional Pricing Information
- Open Pilot Agreement
- Google Classroom Upload Pack

Notes for this audience

This folder emphasizes decision-readiness, standards fit, procurement posture, privacy, implementation requirements, and district-safe licensing.

Start with the Administrator Decision Packet for the fastest overview. Curriculum reviewers should open Standards, Pacing, and Course Fit next. IT or instructional-technology staff should review the Implementation Readiness Packet and Google Classroom Upload Pack before any classroom launch. Pricing and license materials clarify what is free during the pilot phase and what requires a later institutional agreement.

The full preview packet remains available in the full-preview folder. It is an archive/reference copy, not the recommended first read.
