## Notes for this audience

This folder highlights small-group implementation, parent-facing documentation, ESA support, and licensing boundaries for paid or semi-formal programs.

Microschools and co-ops should read the Open Pilot Agreement carefully because free noncommercial pilot use is not the same as using the curriculum as part of an ongoing paid offering. Families using ESA funds should review the ESA packet and keep student portfolio artifacts as part of their records.

The full preview packet remains available in the full-preview folder. It is an archive/reference copy, not the recommended first read.
