# IT and Implementation Admin

---

The Open Source Student — Florida Educator's Edition · Florida Pilot Kit v1.0

## Who this folder is for

IT directors, technology coordinators, Google Classroom managers, LMS administrators, and operations staff.

## Read these first

- Implementation Readiness Packet
- Google Classroom Upload Pack
- Open Pilot Agreement
- Institutional Pricing Information

## Notes for this audience

This folder focuses on no-install delivery, Google Classroom setup, data privacy, accessibility, and licensing limits.

The Pilot Kit can be taught without student AI accounts, without local installation, and without vendor data-sharing agreements when the prepared-output path is used. IT reviewers should confirm the intended demonstration path, Google Classroom setup, accessibility expectations, and whether any live AI tool is approved under local policy.

The full preview packet remains available in the full-preview folder. It is an archive/reference copy, not the recommended first read.
